

Tennis Camera Mount and Camera Control Systems

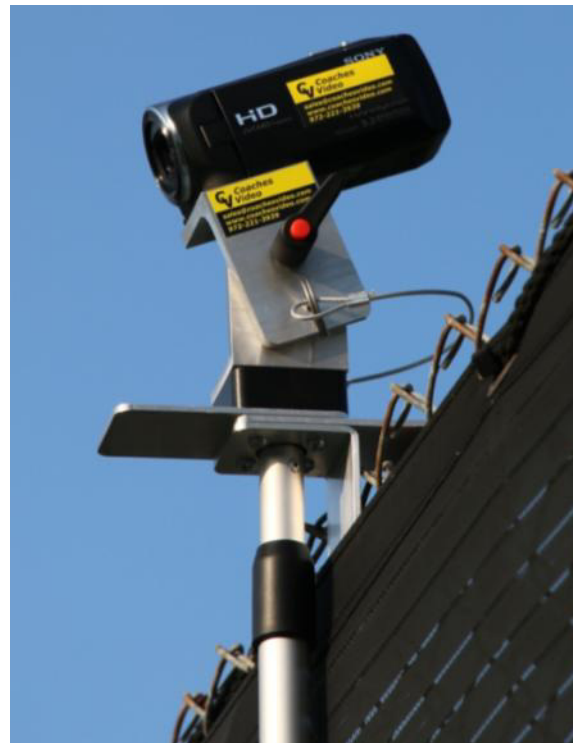

- Our custom fence mount lets you mount the camera on top of the court fence, giving you an elevated view of the court.
- Set the camera angle with our preset pin system to prevent movement to get the view of the court you want. The system has 7 preset angles.
- Light and easy to mount, no ladder needed.
- Mount camera from inside or outside of court.
- Tether for pin so it is not lost.
- Works with standard paint pole or cleaning extension pole. (not included)
- Analyze Strategies & Weaknesses.
- Improve your strokes.

Tennis Camera Mount and Camera Control Systems

**Tennis Hand Held Air Potato System,
includes Hand Held Remote, Receiver,
Camera, SD Card**

Part # TenHHAPSys-NP

List Price \$1329.00

Does not include extension pole

- Start and stop recording with Hand-Held remote from anywhere around the court.
- Start recording at the beginning of the volley and stop recording at the end of the volley. This creates an individual video clip for each volley and eliminates the dead time between volleys.
- Easily upload your video into Hudl and other editing systems for Coaching, highlights and recruiting.
- The system powers your camera for 6 + hrs.
- Record indicators on front and back of receiver and on hand held to verify the system is recording.
- You can expand the system to control up to 8 cameras for different views of the court.
