

# Rover Classic

## Endzone Camera System

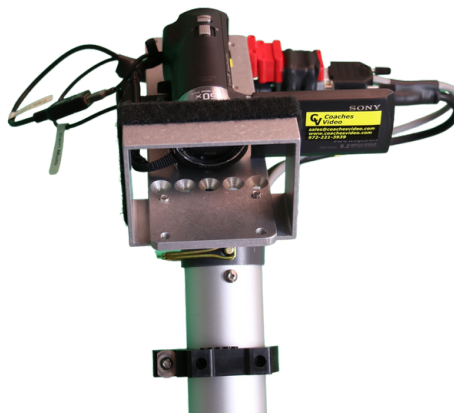

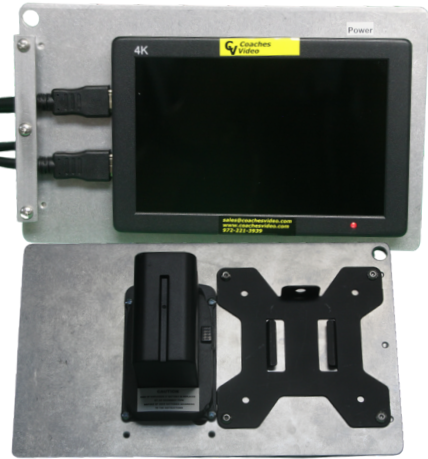

- 20 ft (Travel), 21 ft, 27 ft and 32 ft
- Dual purpose; can be used with the tripod base or a monopod.
- Quick and easy setup and take down. Less than 6 minutes.
- Low cost
- Wide base for stability. Weight of the system does not sit on the base of the pole but is transferred to the three legs.
- Superior strain reliefs. Mast cable is attached with is attached firmly pinned to the mast. Not by Velcro or an optional carabiner. Tilt head is designed so there is no strain on the cable ends or camera ports.
- Long life batteries provide 6+ hours of continuous use.
- 3 piece rain gear for camera, monitor and controller.
- High definition or 4K camera available.
- Rugged monitor has an aluminum housing and mounted on an aluminum plate to protect it and the cables.
- Daylight bright monitor can be used without a sunshade.
- Monitor position can be adjusted up, down, left, right, and tilted to provide the operator the most comfortable viewing position.
- Bearing foot for smooth panning.
